Subject: FW: Supplemental info?

FYI. Just wanted to let you know we have Catherine's edits now in the supplemental information. She has indicated that she would like to QC some of her changes, so we may have some minor updates to her edits down the line. Nothing worth slowing down the progress of this speeding train!

It sounds like Karen needs another day to wrap up her changes to the Supp Info. I'll take a look at it after she finishes.

Thanks Karen. Nothing personal, I'm naturally a skeptical person ☺

I've added Catherine's tables to the document.

Here it is for today. I realize now that I misspoke about Appendix numbers, so some revisions to Section 2 are needed. You sounded skeptical and you were right...

Maybe you can send me what you have before you leave today, and I can add catherine's tables and then send it back to you before I leave the office? I can hold off on reviewing your revisions until you are finished up.

I was taking advantage of Catherine's additions...I can clean it up slightly and send you an interim draft later today, then wrap it up tomorrow.

Hi Karen, I'm just curious when you think you can pass along the Supp Info? I have some tables from Catherine I would like to add.

I understand if you are prioritizing additional changes to be made in the non-cancer dose response! I'm just trying to stay aware of all the BaP pieces.
